

# Presentation of WP 8 Survivorship and Rehabilitation

Cancer Control Joint Action

**CanCon**  
Cancer Control Joint Action

Pourcel Graziella | Brussels | 6 June 2014  
Tognetti Julien

# WP Objective

**To develop a European Framework for high-quality cancer survivorship care and rehabilitation that could be promoted at the EU level**

**The approach will consider the contextualization and the applicability in EU member states and associated countries**

# KEY DELIVERABLES

## 1. Main deliverable :

- **List of European recommendations** for high quality cancer survivorship care and rehabilitation.

 To be included as a chapter in the European guide of quality improvement in comprehensive cancer control

## 2. Other deliverables :

- **European distress thermometer**

 To be included as a chapter in the European guide of quality improvement in comprehensive cancer control

- **Personalised Rehabilitation and Survivorship Care Plan (PRSCP)**

 To be included as a chapter in the European guide of quality improvement in comprehensive cancer control

# ASSOCIATED PARTNERS OF THE WP AND DIVISION OF TASKS

- Catalan Institute of Oncology (ICO), Spain
- Institute of Public Health of the Republic of Slovenia
- National Cancer Research Centre "Giovanni Paolo II", Italy
- Trondheim University Hospital - European Palliative Care Research Centre, Norway
- Cancer Society of Finland, Finland

➔ Each associate partner is a topic leader for the literature research which is the first step of the drafting process of the recommendations.

ex : National Cancer Research centre “GPII” is leading on **Psychological support** with the support of other associate and collaborating partners.

## Partners' areas of collaboration

Main topics	Associated Partners						Collaborative Partners								
	INCa	Catalan Institute of Oncology	Institute of Public Health of Slovenia	National Cancer Research Centre GPII	Trondheim University Hospital	Cancer society of Finland	ECPC	Dutch Cancer Society	Scientific Institute of Public Health	Ministry for Energy and Health (Malta)	International Psycho-oncology Society	Association of EU cancer leagues	AMC - Netherlands	ECCO	ECGCS
Clinical follow-up, physical rehabilitation and management of the late effects, tertiary prevention		X			X	X	X							X	
Supportive and palliative care		X		X	X	X	X			X					
Psychological support		X		X		X	X	X		X	X				
Social rehabilitation including employment issues			X			X	X	X	X		X	X			
Education of survivors				X			X	X		X					
Multidisciplinary approach and coordination of cancer care providers (including the role of cancer care community)		X			X		X							X	
Clinical research	X			X	X										
Policy and Advocacy			X				X		X	X		X		X	
Specific cross-cutting issues	Inequalities														
	Type of cancer														
	Specific population														
	Temporality														
		Topic leader													

# Involvement of Collaborating Partners

- Scientific Institute of Public Health, *Belgium*
- Ministry for Health, the Elderly and Community Care, *Malta*
- International Psycho-oncology Society, Lisboa, *Portugal*
- The Association of European Cancer Leagues, *Belgium*
- Academic Medical Centre, Coronel Institute of Occupational Health, *Netherlands*
- European Cancer Patient Coalition, *Belgium*
- Dutch Cancer Society, *Netherlands*
- European CanCer Organisation (ECCO), *Belgium*
- European Collaborative Group on Cancer Survivorship (ECGCS)

➔ To collaborate whenever possible according their area(s) of expertise, knowing the limited time and resources they can dedicate to the project.

# KEY ISSUES TO BE DISCUSSED WITH COLLABORATING PARTNERS

## Our expectations towards collaborative partners

- Share their information and knowledge
  - Networking and dissemination
- Reviewing documents according their area of expertise

Thank You
